Claims 1-19 are in the application.

The restriction requirement indicates that the present invention contains claims that are drawn to inventions that are distinct because they are related as a product (Group I, claims 1-16) and process of use (Group II, claims 17-19). Applicants hereby elect the claims of Group I (claims 1-16) without traverse.

In view of all of the above, it is believed that the application is in condition for favorable consideration on its merits, which action is earnestly solicited.

Respectfully submitted,
James Knapp et al.
